to prove that the wines are most healthy for 182.

2. Because they are made under my own expervision and I can guarantee the wines are made from rich, the grapes, carefully selected, and no artificial matter used. With the experience of twenty years I can now give the public a wine that cannot be equaled.

4. Because these wines are stored in my own vaults and I have only experienced men employed to handle and earo for those wines.

5. Because the demand for pure Virginia Wines has increased every year and now these wines lead the market for pure wines.

6. Because analyses have shown that there wines experience centain less alcohol and more fron than any other wine in the market, which is a possibly proof that these wines are most healthy.

7. Because of the natural advantages Virginia has to grow grapes. The soil is adapted expectally for grape growing and does grow the highest types of grapes for wine making.

8. Because all my wines are three years old and theroughly matured before they are but tied.

AMUSEMENTS.

"Columbus" was the change of bill at the National last night by the Lydia Thompson burlesquers and it had a big house. Miss Thompson as 'Columbus' was the best-looking women in the lor, and her costume of light brown touched and her costume of light brown touched with blue was a symphony of color. Mr. Kenney's Alonzo was funny, but it was very broad at times. Mr. Gillow, from the chorus, did Bobabillo, Mr. J. W. Herbert, who is to do the part regularly, having a seat in the audience to see how it would go. Mr. Gillow did very well, considering. Mr. Herbert takes it to-night. Miss Newham's dancing caught the house again with great forvor, as it always will. Miss Alliston's Caroline was way up, and her dancing in long skirts is a revelation. She and Laura Joyce Bell could star the museums as the Siamese twhis. Mr. Surr's reporter and specialties were Starr's reporter and specialties were up to the mark. "Columbus" is not

a very great play, but it goes. Again to-night.

Washington Irving Bishop, the mind-reader, and Miss Mabel Clifford Taber-Bishop were married in St. Paul, Minn. yesterday by Rev. Dr. Heath, in order to set at rest any doubts regarding an alleged previous marriage. The sym-pathies of this entire community are hereby extended to the bride.

The New Mecca.

In this age of misrepresentation, when the irrepressible Quack walks abroad through the medium of the printing press, and with an entire disregard of the consequences to humanity, seeks to impose his unskillful services or worthless denoctions upon the public, we take especial pleasure in saying a word in commendation of a reliable and justly-famous Institution of Healing.

We refer to Dr. R. V. Pierce's "World's Dispensity and Invalid's Hotel and Sur-gical Institute," the pride of the good city of Buffalo and the "Mecca" of a multitude of Buffalo and the "Mecca" of a multitude of invalids who owe recovery to the skillful treatment and attention there received. Dr. Pierce's establishment comprises two mammoth and artistic structures, connected by an open passage way: One an Invalid's Hotel and Surgical Institute, presided over by a corps of Eighteen Celebrated Physicians and Surgeons, and provided throughout with the most inxurious appointments and conveniences that taste can suggest and money can supply.

Here are faultiessly furnished and decorated reception rooms, reading room, spa-

rated reception rooms, reading room, spa-cious sleeping apartments, Turkish baths, and every possible convenience of a mag-nificantly-constructed and liberally-man-aged Hotel, with each and every depart-ment a marvel of artistic fitness and com-relations.

The adjoining structure is known as the "World's Disjensary." Upon each of its six immense floors a scene is presented which, when once observed, can never be

which, when once observed, can never be forgotten.

In the Laboratory on the fifth floor, a large number of careful chemists are constantly employed in the preparation of Dr. Pierce's Golden Medical Discovery, Favorite Prescriptions and other world-famed preparations, which, at all hours of the busy day, goes singing and garging through a system of tubing, from its birthplace on the fifth floor to the bottling and labeling department in the vast basement of the building. The intermediate floors are alive with the buz-z and whir-r of, not alone, fourteen printing presses, throwing alone, fourteen printing presses, throwing off a countless variety of pamphlets, circu-lars, books and labels, but of folding, presslars, books and labels, but of folding, pressing and pasting machinery, all operated by
the deft fingers of cleanly-dressed and
intelligent young ladies, all operating together and filling the place with the music
of a well-disciplined activity second to none
in our country. Dr. Pierce has done and
is doing a great work for humanity, and
can accept the honors and emoluments of
his recegnized position with a knowledge
that no success was ever more worthily attained.

that no success was ever more worthily attained,

To go through a detailed account of the myriad mechanical and electrical appliances and contrivances here to be found in perfection of construction and application, or to lead your observation through suite upon suite of cheerful and elegand consulting and treatment-rooms, and to dwell upon the other thousand-and-one attractive and useful features of the establishment, would be a pleasing task, but, at the present moment, for us an impossible one. Enough for us to say that the people of the country should be proud of this great success, built up, solely, on the elements of true Americanism, viz.: Pluck, Integrity and Ability.

Twenty-two years of the daily and hourly exercise of these characteristics has gained for Dr. Pierce the confidence of the entire public and the heart-felt thanks of the patrons of his skill, "whose name is Legion,"

"IS MARRIAGE A FAILURE ?"

A Clever Club of Clever People Dis-The much-talked of query "Is Mar-riage a Failure?" was the subject of an interesting discussion by the Six o'Clock Club at their regular meeting last night. General Van Vliet was the first speaker, and sald that though he had been married forty years he was not yet prepare I to answer the question. He talked in to answer the question. He talked in an interesting way of marriage among the Aborigines of the far West and his amusing experiences at Salt Lake City. Colonel R. J. Hinton, a prominent newspaper correspondent, said that civilization was based upon the idea of the family, and did not believe that the institution of marriage was in any sence, in its personal, social or historical results, a failure. Commissioner Lyman said he could answer the question in the six words "I have not found it so." There were a number of other speakers, and it was one of the most interesting meetings the club has thus far had.

This was the last of these pleasant occasions. Hereafter the club will give fortnightly river excursions.

He commenced a correspond ence, photographs were exchanged, and last Sunday evening was set for the splleing of the ropes. Sunday he stepped from the train, well-dressed. neat and fine appearing, went to a prom-inent hotel and registered from Rich-mond, Ind. He hired as fine a livery rig as could be found, called upon his prospective mate and found she was red-headed. His crushed feelings were exprospective mate and found she was red-headed. His crushed feelings were ex-pressed to the effect that most men would have committed suicide, but he was satisfied with a big drink, and in this he found refuge for saveral days, and after recklessly squandering several hundred dollars, he left for the West hugely disgusted with the town and everything else.
